

Question:

Physics

The instrument used to measure the speed of the wind is

- 1 Altimeter
- 2 Anemometer
- 3 Chronometer
- 4 Dosimeter

Downloaded From: eLearn Pro (<https://myelearnpro.com/>)

Concept:

An ***anemometer*** is a device used for measuring ***wind speed*** and direction. It is also a common weather station instrument. The term is derived from the Greek word anemos, which means wind, and is used to describe any wind speed instrument used in meteorology.
