Question:

Chemistry

Which of the following is not present in German-silver?

1. Copper
2. Nickel
3. Silver
4. Zinc

Downloaded From: eLearn Pro (https://myelearnpro.com/)

Concept:

German Silver is an alloy of **copper**, **zinc** and **nickel**, sometimes also containing **lead** and **tin**. It was originally named for its **silver-white colour**, but the term 'silver' is now prohibited for alloys not containing that metal.
