

Question:

Numbers

A canteen requires 13 dozen bananas per day. How many bananas will it require for 9 weeks?

- 1 728
- 2 9828
- 3 1404
- 4 9882

Downloaded From: eLearn Pro (<https://mylearnpro.com/>)

Explanation:

Requirement of bananas for 1 day in the canteen = 13 dozens
∴ Requirement of bananas for 9 weeks i.e. 63 days
= 63×13 dozens
= $63 \times 13 \times 12 = 9828$.
