

Question:**Numbers**

The difference between a number and one fifth of it is 84. What is the number?

- 1 95
- 2 100
- 3 105
- 4 108

Downloaded From: eLearn Pro (<https://myelearnpro.com/>)

Explanation:

$(1 - 1/5)$ of the number = 84
 \therefore number = $(84 \times 5) / 4 = 105$
