

**Question:****Geography Class 6**

The lower blocks in Block Mountains are

- 1 graben
- 2 horsts
- 3 glaciers
- 4 none of these

*Downloaded From: eLearn Pro ( <https://myelearnpro.com/> )*

**Concept:**

**Block mountains** are created because of faulting on a large scale (when large areas or **blocks** of earth are broken and displaced vertically or horizontally). The **uplifted blocks** are termed as **horsts**, and the **lowered blocks** are called **graben**.
