

Question:

Biology

Cell or tissue death within a living body is called as

- 1 Neutrophilia
- 2 Nephrosis
- 3 Necrosis
- 4 Neoplasia

Downloaded From: eLearn Pro (<https://myelearnpro.com/>)

Concept:

Necrosis is the death of body tissue. It occurs when too little blood flows to the tissue. This can be from injury, radiation, or chemicals. **Necrosis cannot be reversed.** When large areas of tissue die due to a lack of blood supply, the condition is called **gangrene**.
