

Question:

Analogy

KLM : PON :: NOP : ?

- 1 LMK
- 2 MLK
- 3 NML
- 4 KLN

Downloaded From: eLearn Pro (<https://myelearnpro.com/>)

Explanation:

Because KLM are assigned No. 11, 12 & 13 from A onwards, this corresponds to PON, which are also numbered 11, 12 and 13 from Z to A in reverse order. Hence NOP will correspond to MLK.
